REMARKS/ARGUMENTS

In response to the restriction requirement, applicant elects the Group I claims 1-10 and 18-21, with traverse.

Applicant has also amended the Group II (method) claims 11-17 to be dependent on the compound claim 1, as they are in the PCT application. The method claims share technical features with claim 1. Applicant believes that the method claims will eventually be eligible for rejoinder.

Respectfully submitted,
